REQUEST FOR A CORRECTED FILING RECEIPT

Sir:

Please issue a corrected filing receipt for the above application. The original filing receipt includes the following error(s):

 X The priority data is incorrect. The correct priority data is: The Present Application claims priority of U.S. Application No. 09/933,914 filed August 20, 2001, which claims priority of U.S. Provisional Application No. 60/279,970..
A copy of the first page of the application setting forth the correct priority data is enclosed..

 X A redlined copy of the filing receipt reflecting the error(s) is enclosed.

It is requested that the U.S. Patent and Trademark Office issue a corrected filing receipt at the earliest possible date.

In the event payment of any fee is inadvertently not enclosed or if any additional fee during the prosecution of this case is not paid, the Patent and Trademark Office is authorized to charge the underpayment to Deposit Account No. 170026.

Dated: April 30, 2008

METHOD AND APPARATUS FOR PROVIDING PROTOCOL OPTIONS IN A WIRELESS COMMUNICATION SYSTEM

BACKGROUND

Claim of Priority

[1000] The present Application for Patent claims priority of U.S. Application No. 09/933,914 filed August 20, 2001, which claims priority of U.S. Provisional Application No. 60/279,970, filed March 28, 2001, both assigned to the assignee hereof and hereby expressly incorporated by reference herein.

Reference to Co-Pending Application

[1001] The present Application for Patent is related to U.S. Patent Application No. _____, filed 10/03/2001, having Attorney Docket No. 010556, entitled "METHOD AND APPARATUS FOR DATA PACKET TRANSPORT IN A WIRELESS COMMUNICATION SYSTEM USING AN INTERNET PROTOCOL," by Nikolai Leung et al., assigned to the assignee hereof and hereby expressly incorporated by reference herein; and

[1002] U.S. Application No. _____, filed _____, having Attorney Docket No. 020003, entitled "METHOD AND APPARATUS FOR PROVIDING MULTI-LAYER TRANSMISSIONS IN A WIRELESS COMMUNICATION SYSTEM," by Nikolai Leung, filed concurrently herewith, and which is expressly incorporated by reference herein.

Field

[1003] The present invention relates to wireless communication systems generally and specifically, to methods and apparatus for providing protocol options for a broadcast transmission in a wireless communication system.

Background

[1004] There is an increasing demand for packetized data services over wireless communication systems. As traditional wireless communication

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Method and apparatus for providing protocol options in a wireless communication system

Preliminary Class

455

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
